

## **ASSE and COCHMM Joint Meeting**

---

The featured speaker will be  
**Tanis Marquette, CSP, ROHT, CHMM, CGP**

Technical Compliance Manager  
Momentive Specialty Chemicals Inc

Tanis will discuss: Sustainability. Tanis received a technical diploma in Occupational Health and Safety from BCIT in 1994. With over 18 years experience in health, safety and sustainability she has been active in both the Canadian Society of Safety Engineers and ASSE. She is a recognized international speaker on health, safety and sustainability topics. Sustainability is a broad term and yet so finite. Green. Carbon Footprint. Greenhouse gases. Renewable resources. Bio-based materials. Eco-friendly. Environmental intensity. Water Management. Life Cycle Analysis. Corporate social responsibility. Diversity. Ethics. Transparency. To only mention a few ... but where is safety and health? As we discuss sustainability and all its impacts, participants will realize they have influence and opportunity at every turn whether their expertise is health, safety, environmental, or a combination of all disciplines. After this introduction to the various sustainability impacts, participants will learn how they can drive sustainability value in their respective organizations.

**When: Friday, September 16, 2011**

**Where: OCOSH Training Center  
13430 Yarmouth Drive  
Pickerington, OH 43147**
